## PROFILE

Client Onboarding and Business Support Associate at BMO Private Wealth, onboarding incoming advisor books of CAD $400M–$700M each. The work is deciding whether documentation meets a standard, auditing completed files for control gaps, and sequencing a team's queue by value and risk. Earlier experience in month-end close and cross-border reconciliation. Carried out in Excel, Power BI and banking platforms.

## EXPERIENCE

### Client Onboarding & Business Support Associate
Sept 2026 – Present

BMO Private Wealth · First Canadian Place, Toronto

- Onboard incoming advisor books of CAD $400M–$700M each, every book spanning 400+ client households, against fixed transition deadlines.
- Adjudicate new account applications against account-opening and KYC standards, returning deficiencies to the advisor as a specific list.
- Validate client information across internal banking systems; initiate and track incoming asset transfers, working rejections through to resolution.
- Build the prioritized case lists that sequence the team's daily work, analyzing funds in transit at household level in Excel and Power Query.
- Audit every completed onboarding file and lead colleagues through the audit cycle until each finding is closed.

### Finance & Operations Analyst
May 2025 – Aug 2026

Golden Quasar Inc. · Mississauga

- Responsible for the monthly close alongside the company's external accountant: accruals, deferred revenue and balance-sheet reconciliations, against a fixed reporting calendar.
- Reconciled a three-way match on a CAD $410,000 cross-border service contract: purchase order to invoice to cash received, net of foreign withholding tax.
- Processed vendor invoices end to end: approval routing, PO-to-invoice matching and dispute of line-level variances before payment.
- Managed accounts receivable and collections, reconciling receipts against invoices and purchase orders.
- Administered client service agreements and invoiced in line with their contract terms.
- Prepared monthly financial reporting and analysis for leadership, built in Excel and Power BI with Power Query.

### Client Success Associate
Jan 2024 – Apr 2025 · Part-time

Golden Quasar Inc. · Mississauga

- Ran new-client onboarding end to end: agreement execution, billing set-up, document review, account creation and tracking every open item to closure.
- Managed the client side of a CAD $410,000 smart-city contract, tracking weekly service levels against contract targets.
- Took on budgets and re-forecasts, vendor invoices, expense review and month-end support before moving formally into the analyst role.
- Exceeded targets by 25% while holding 96% client satisfaction.

### Operations Consultant / Training Coordinator
Jan 2023 – May 2024 · Part-time

Prometric Center · Yukon Consultants · Toronto, Montreal, Halifax and Sacramento

- Coordinated operations across four test centres delivering exam programs for CFA Institute, US CPA, securities licensing and medical licensure.
- Escalation point for eligibility disputes and documentation discrepancies; verified identity and eligibility documentation at intake.
- Coached a 15-person team on documentation handling and exception judgment.
- Candidate satisfaction survey scores rose from 68% to 94% across the four centres over about a year, and capacity utilization from 30% to 80%.

### Business Research & Client Support Intern
Jul 2021 – Dec 2021

Investor Quotient (IQ Canada) · Toronto

- Built financial models and revenue projections for early-stage startups in an incubator and accelerator program.

## SELECTED PROJECTS

- **Book Transfer Control Tower**: a queue simulation of a 420-household book transfer on synthetic data. Built with AI assistance. matinsaiyed.com/work/book-transfer-control-tower.html
- **Canadian National Railway valuation**: DCF and peer valuation from filed statements, with an Excel model and memo. Built with AI assistance. matinsaiyed.com/work/cn-rail-valuation.html
